

Love is in the air!

From heart to heart - with joy and love

Before our hearts break even more, freeze and wither away, the second magic cup brings the fire, the value and above all the heart warmth of different gems joining together to play the melody of the heart, the love song of the people.

The melody tells of heartfelt friendship, shared laughter, intimate embraces and shining eyes, of butterflies in the stomach, a shoulder to lean on, deep gazes, the feeling of security, the knowledge of being loved. It speaks of the hand on the shoulder and the need to touch - just because.

Man or woman, old or young, down-to-earth or totally detached, whether first heartbreak or loss of partner after many years - this cup is to remind us that we are people with a heart, who not only feel, but also need touch, because otherwise they wither away inside.

Whatever is drunk from it makes our heart grow stronger, our heart qualities come alive, so that we can once again have radiant eyes from which life, laughter and the joy of life can flow, from which life, laughter and love sparkle.

Under the wings of Venus and Mars, these are the gem musicians:

Tourmaline, Rhodochrosite, Turquoise, Rock Crystal, Andean Opal, Sugilite, Lapis, Ruby Zoisite, Flint, Carnelian, Bustamite, Azurite-Malachite, Amethyst, Ruby, Botswana Agate, Malachite, Precious Opal, Sapphire, Emerald, Malachite, Chrysocolla, Olivine and Brilliant.

(The effects of most of the stones can be read in our webshop or in our actual ebook).

You don't even need an occasion, because strengthening the heart is always good!

Occasions such as Valentine's Day, Mother's Day, week, month or year anniversaries and birthdays are naturally predestined for our „Love Cup“ - but it can always be given as a gift, because love is, like a smile, a hug or a little attention never out of fashion!

So the mug is for him and her, for you and me.

The events and schemes of the „Covid phase“ have driven countless people into loneliness, isolation, illness and also often into despair. It's time we did something about it.

My intention with this cup is that all those whose hearts are aching receive a loving, kind, nice magic potion. A caress for the soul, a magical hug, an enchanting kiss right onto the heart!

*Enjoy your
magic cup!*
